pedestal®

Congratulations on your new Pedestal product.

We welcome you on our journey towards creating flexible interior design solutions for tv-screens.

Back in the day, televisions were design objects – beautifully made, and put on display. But somewhere along the line, we began to care less about how they look.

Most of us have a big screen at home. Personally, we love them. We watch, zap, and binge with a single click. But making them look good? Now, that's a challenge.

Mounts, pods, links, stands, call them what you want. Those things that hold your screen can really ruin your feng shui. Setting up your screen at home can feel like choosing between a living room – or a screening room.

So, we founded Pedestal.

We're a small team of people who design furniture that hold screens, inspired by 20th century industrial aesthetics. They should look good and work just right. That's it.

Tools

You will need the tools listed below:

- 1: Wrench (Provided in the hardware bag)
- 2: Hex keys (Provided in the hardware bag)
- 3: Table
- 4: Soft cloth or blanket
- 5: Assisting friend

1.0 Floor Protection

Task

Slide the silicone gliders onto the tube.
Two on each foot.

Parts

4 x Silicone gliders

2.0 Mount brackets

Task

Mount the brackets horizontally onto both sides as shown.
Tighten all connections.
